Subject: Voting Reform

From: Brian Yu,

To: CAB,HKSAR

Message:

The numbers of electoral seats in LEGCO should be flexible to reflect the percentage of voters' registration, i.e. the numbers of electoral seats reach full house when there're 100% of the registrations. Appointed seats are necessary in otherwise.

To calibrate the election of CE, the voting turnout should exceed 60% of voting populations: This is the true and fair society.
