Move To:

Before deciding the direct elections in HK in 2007 /2008, please be advised to consider the basic requirements / mutual respects as follows: -

- (1) The Appreciation & Implementation of one-country two-system in HK;
- (2)*The Appreciation & Implementation of the Basic Law in relation to our country;
- (3)*The Associated Laws / Regulations required for the Legislators / Participating Parties in direct election;
- (4)*The Qualifications, Trainings, Experiences, Roles and Legal Liabilities of the HK Legislators To Be Reviewed;
- (5) The Political Policy & Continual Development of the Individual Parties in HK Legislative Council;
- (6)*The Benefits of All Sectors of the HKSAR;
- (7)*The Tax Contributions To Be Balanced for All HK Citizens, not just only a small portion of tax payers; and
- (8)The Status of Economy of the HKSAR.

** It is very important and necessary to highlight these points if we consider the Stability & National Security.*

For illustration, please refer to the recent election in Taiwan.

Thank you for your great help.

Best regards,
