Subject: B1 What is the most appropriate legislative procedure for amending the methods for selecting the CE and forming the LegCo set out in Annexes I and II:

    Move To: 

(b) Local legislation only.

There is no need to amend the basic law. The basic law have given you the procedure and path for election and selection method changes of CE and Legco. You don't have to fight to Hong Kong people by imposing more and more difficulty for the changes. You are representing Hong Kong people. CPG already has their own representatives.

You don't fight for Hong Kong pepole for their rights. Why we have to pay for your rent?

Subject: B3. How should any amendment relating to the methods for selecting the CE and for forming the LegCo be initiated

    Move To: 

Next CE election and next Legco elections should be open to all Hong Kong citizen and should be direct elections.

CE candidates can be choosen by the 800 people election committee and the committee should be further enlarged to take in more general public opinions and more local political parties including local democratic parties. This is the control for CPG that there will not have a CE elected who will not have the CPG's blessing.

Legco elections should be all direct election and cancelled the functional group quota.

Subject: B4. Whether the method for formation of the third term LegCo could be used for the fourth term LegCo, if no consensus were reached on whether to amend the method for forming the LegCo after 2007

    Move To: 

This is what you are planning to do, right? Slow down the consultation speed and saying that the society views are divided so that the next Legco formation and ~~EE~~ election couldn't change.

You think Hong Kong people are idiots? We don't know your tricks? You better stop slowing down the constitutional development and its consultation. or else, you and the people behind you will have no face to the history and our next generations! you will face the justice.

Subject: B5. Whether the phrase 'subsequent to the year 2007' should be understood to include 2007

    Move To: 

Of course include 2007. If this is not including 2007, you are insulting the people who draw the Basic Law. You are trying to say they are playing tricks when they write up this phase.
