Subject: opinion

    Move To:

Dear Sir,

I have been told ,inter alia, as in the term "one country two systems", one country is in front of two system, therefore, the interest of one country has to be considered as first priority.

If this logic is followed, we are now living in the "PEOPLE'S REPUBLIC OF CHINA", therefore, the interest of people has to be considered as the first priority and the Political system of 'REPUBLIC' as the second priority and the CHINA must belong to the people and under the political system of "REPUBLIC". I am in the opinion that to RE-direct the power to the PUBLIC, all PEOPLE has to has the right to vote their leader.

I am also agree with the arguement of those people who say, inter alia, development shall be step by step. However, they have not put forward any corner-stone test of their 1st step and 2nd step and so on. I cannot see any step from their arguement. This aversively affect their level and depth of thinking. I am in the opinion that we have already pass a lot of steps in the pass and we are now ready for the last step, ie, 1 people one vote for the legislator and the chief. If not, we will fail to carry out the name of our PEOPLE'S REPUBLIC OF CHINA. Or, we are not being considered as people, are you?

Faithfully

William Poon
