Subject: Comments of 07/08 Elections.

    Move To:

I feel it is very dangerous for Hong Kong people to choose our Chief Officer in 2007. I find some Hong Kong people have no capability to analysis and identify which is right or wrong. They are easily misled by irresponsible 政客. I think the chief officer must be civil servant and appointed by China Government. I believe China Government can select the right person for us. I don't want member of any political organization to be our chief officer. It will involve many benefits.

Election for legislators should be 40 from all Hong Kong people and 20 from functional units. Every Hong Kong people gets one time election. Voters of functional units can only vote for their organizations. No one gets two time voting.

(Name Provided)

P.S. I do not want to disclose my name.
