As there are many views, government cannot get the exact direction of all the people of Hong Kong. To have a fair and open view, let all the people of Hong Kong to have a vote seem to be a better choice among all the government's suggestions.

I prefer to have the Chief Executive elected by universal suffrage in 2007.

Government should define and setup the path for people to participate in the public administration.??? This is not means that government to provide training to a dedicated person, or a group of dedicated persons.

The increase the number of seats in the Legislative Council is totally unacceptable. The reform should towards universal suffrage. To towards universal suffrage, The number of seats in Geographical Constituencies through Direct Election should increase while the number of seats in Functional Constituencies should decrease. The number of seats in the Legislative Council should maintain at 60. To gradually transit to universal suffrage, The number of seats in Geographical Constituencies through Direct Election should increase to 35 while the number of seats in Functional Constituencies should decrease to 25.

Mr. Lam Shui Lun should be fired. He is not qaulified for the post.

Regards,
 Patrick Wong
 A citizen of Hong Kong.
