Subject:Opinion on the 5th Report

Move To: 

Dear sir / madam,

I strongly oppose the to creation of new post as it is a wastage of government expenditure and such expansion is not suitable to a small government concept.

I am in the opinion that government officers (e.g. AOs) are capable of helping senior government heads to set up linking with public pressure/interest group as well as the leaders of political groups.

Please do not make a wrong policy as the previous CE did as a samll group of new assistant will not help to ease recent complex and uncompromising political situation. The only consequence you can predict is wasting more government money.
