The 14th Plenary of the Hong Kong/Guangdong Co-operation Joint Conference

Purpose

This paper briefs Members on the major outcomes of the 14th Plenary of the Hong Kong/Guangdong Co-operation Joint Conference held on 23 August 2011 in Hong Kong.

Background

2. The Chief Executive, Mr Donald Tsang, and the Governor of Guangdong Province, Mr Huang Huahua, co-chaired the 14th Plenary of the Hong Kong/Guangdong Co-operation Joint Conference in Hong Kong on 23 August 2011. At the meeting, the two sides reviewed the progress of Hong Kong/Guangdong co-operation over the past year and set the directions for co-operation in the coming year. Both sides considered the progress of implementation of the 2011 Work Plan satisfactory. Apart from promoting economic development, Hong Kong and Guangdong also achieved outcomes which are beneficial to and can be felt by people of the both sides. The conference discussed various co-operation areas, including the development of financial services, commerce and trade co-operation, travel facilitation, co-operation on environmental protection, medical

services co-operation, education co-operation, cultural exchanges, key co-operation areas and regional co-operation plans. The two sides signed five co-operation documents at the co-operation projects agreement signing ceremony held after the meeting. The texts of four cooperation documents are at Annex¹. A press release was issued in the afternoon of the same day. The key areas discussed at the meeting are summarised in the following paragraphs.

Development of financial services

3. For both Hong Kong and Guangdong, financial services is an important economic sector. It is also a key area of co-operation between the two places. In the past year, there were encouraging developments in cross-border Renminbi (RMB) business including expansion of the geographical coverage of the RMB trade settlement scheme in June last year to cover the whole of Guangdong Province. In the first half of 2011, RMB trade settlement conducted through Hong Kong banks reached RMB804 billion, of which nearly 30 per cent involved trade settlement between Guangdong and Hong Kong.

4. Other financial services involving the two places have also recorded healthy growth. Presently, four banks with Hong Kong capital have set up a total of 12 sub-branches in Guangdong. In addition, as of June 2011, over 125 Guangdong enterprises have been listed in Hong Kong, and the Hong Kong subsidiaries of six securities companies, four fund management companies and three securities futures trading companies from Guangdong have obtained licenses to carry on regulated activities in Hong Kong.

5. In the coming year, in accordance with the National 12th Five-Year Plan and the principles of the Framework Agreement on Hong Kong/Guangdong Co-operation (Framework Agreement), Hong Kong and Guangdong will fully utilise Hong Kong's position as an

international financial centre and formulate policies and measures to establish a financial co-operation zone led by Hong Kong's financial system and supported by financial resources and services of the Pearl River Delta region. Both sides will continue to promote RMB business; enhance co-operation in various financial services such as credit, securities, insurance, futures, bonds and asset management; and support further exchanges and co-operation between talents and training institutions in the financial sector.

Commerce and trade co-operation

6. On commerce and trade, Hong Kong and Guangdong have been actively pushing forward the implementation of the Mainland and Hong Kong Closer Economic Partnership Arrangement (CEPA) over the past year, and achieved remarkable results. Since the implementation of Supplement VII to CEPA in January this year, Guangdong has promulgated the implementation details for all relevant pilot measures. To familiarise the industries with CEPA measures, a number of seminars have been organised by the two sides to introduce implementation details in the testing and certification, medical and construction services sectors. These efforts are beginning to yield results, as evidenced by an increasing number of clinics set up by Hong Kong doctors and dentists in Guangdong.

7. On upgrading and transformation of the processing trade, Guangdong Province has reached agreements with relevant Central Government ministries, including the Ministry of Commerce and the General Administration of Customs, to implement various measures to help the processing trade in Guangdong to upgrade and transform operations. Hong Kong will work closely with Guangdong Province to develop relevant implementation details as soon as possible.

Travel facilitation

8. To facilitate travel between the two places, relevant organisations from Guangdong and Hong Kong signed after the meeting a Heads of Agreement regarding the issuance of a Lingnan Tong and Octopus two-in-one card, to be launched in 2012. It is an initiative that would benefit the general public as card holders can use these cards to pay for public transport and retail purchases in Guangzhou, Foshan, Jiangmen, Zhaoqing, Shanwei, Huizhou and Hong Kong.

9. On the other hand, the first phase of the trial scheme to introduce ad hoc quotas for cross-boundary private cars will be launched in March 2012. Owners of Hong Kong private cars with five seats or less may apply for ad hoc quotas under the scheme to drive their private cars into Guangdong Province. This will further facilitate travel between the two places. The relevant arrangements and implementation details will be announced before the end of this year.

Co-operation on environmental protection

10. On environmental protection co-operation, improvement of air quality is one of the key areas. Hong Kong and Guangdong have been actively implementing the emissions-reduction measures under the Pearl River Delta Regional Air Quality Management Plan (2002-10). On the basis of the final assessment now being conducted on the Management Plan, the two sides will seek to complete by the end of this year the study on future arrangements for emissions reduction in the Pearl River Delta region and promulgate the findings.

11. Both Hong Kong and Guangdong recognise the importance of regional co-operation to combat climate change. With

a view to controlling greenhouse gas emissions and actively promoting the development of a low-carbon economy in the region, the two sides agree to set up the Hong Kong/Guangdong Liaison Group on Combating Climate Change under the Hong Kong/Guangdong Co-operation Joint Conference. The Liaison Group, led jointly by the Environment Bureau of Hong Kong and the Development and Reform Commission of Guangdong Province, will co-ordinate measures and activities in combating climate change, including the promotion of scientific research and technology development in the two places.

Medical services co-operation

12. On medical services co-operation, Hong Kong and Guangdong co-operation continues to deepen. As of July 2011, Hong Kong service providers have set up a total of 10 clinics and out-patient clinics in Guangdong. Meanwhile, the first hospital to be jointly established by the two sides will commence operation in 2012. This hospital was developed by the Shenzhen authorities, while the University of Hong Kong assisted in its planning and will participate in its future operation.

13. There is good progress in the arrangement for transfer of medical records of Hong Kong citizens from Guangdong to Hong Kong. The Hong Kong Hospital Authority and the Shenzhen authorities have launched a medical records transfer pilot project in Peking University Shenzhen Hospital and Shenzhen Nanshan People's Hospital since the first quarter of 2011. This project will be gradually extended to four other hospitals.

14. We will step up co-operation in medical services with Guangdong Province. We will also continue to strengthen our ties with the Central Government and Guangdong Province to provide training and information to Hong Kong medical practitioners to

enable them to have a better understanding of Mainland laws and regulations as well as the requirements and procedures for Hong Kong service providers to set up operations in Guangdong.

Education co-operation

15. On education co-operation, significant outcomes have been achieved in various aspects, including higher education co-operation, vocational education co-operation, teacher co-operation and training, the sister school scheme and the pilot scheme on schools and classes for Hong Kong children in Shenzhen.

16. Looking forward, Hong Kong and Guangdong will encourage more innovative co-operation between higher education institutions in Hong Kong and educational institutes in Guangdong; continue the promotion of co-operation in vocational education; continue with the implementation of the pilot exercise on schools and classes for Hong Kong children in Shenzhen; continue the implementation of the sister school scheme and explore the deepening of exchanges between sister schools; and continue the improvement of teacher training and establishment of bilateral exchanges.

Cultural exchanges

17. Hong Kong and Guangdong have organised many cultural exchange activities over the past year. A series of events have been organised successfully, including the unprecedented joint Cantonese opera performance "A Showcase of Guangdong, Hong Kong and Macau Cantonese Opera Masters" by Guangdong, Hong Kong and Macau. The three sides are also working jointly on a roving exhibition entitled "Ceramics of the Maritime Silk Road - Relics from the Pearl River Delta Region", which will be displayed from May 2012 to the end of 2013, and other cultural promotion events.

Key co-operation areas

18. On each key co-operation area, significant progress has been made. Nansha is one of the key outcomes of this year's Hong Kong and Guangdong co-operation. The two sides have decided to set up a working group on Hong Kong/Guangzhou co-operation to take forward the development of Nansha under the framework of the Hong Kong/Guangdong co-operation, so as to promote the upgrading and transformation of Hong Kong-invested processing trade in Guangdong, to develop a demonstration zone for implementation of CEPA and relevant early and pilot measures, and to advance co-operation in social services.

19. On Qianhai, the Shenzhen authority is now striving to formulate preferential policies and lower the entry thresholds for Hong Kong service providers to establish operations in Qianhai. The HKSAR Government will continue to complement the efforts of the Shenzhen authorities.

Regional co-operation plan

20. The four regional co-operation plans set out in the Framework Agreement have seen smooth progress. Preparatory work on the "Tourism Co-operation Plan" has started. "The Study on the Action Plan for Bay Area of the Pearl River Estuary" has entered its final phase. It is expected that the study results can be announced by the end of this year or early next year. The three sides will strive to complete by early next year the Plan on Infrastructure Construction to strengthen the linkage of existing and planned infrastructure facilities in Guangdong, Hong Kong and Macau. As for the Regional Co-operation Plan on Building a Quality Living Area, Guangdong, Hong Kong and Macau have commenced public consultation shortly to collect views from the public on the co-operation directions proposed in the study. The views collected

will be taken into account in the further studies with a view to releasing the findings of the Plan in early 2012. Looking ahead, the three sides will endeavour to implement the regional co-operation plans to enhance co-operation in respect of the living environment, transport infrastructure and tourism.

Other areas

21. Apart from the above-mentioned areas, Hong Kong and Guangdong have also made steady progress in co-operation in various other areas such as cross-boundary infrastructure, creative industries, innovation and technology, testing and certification, tourism, building of cross-boundary control points and cross-boundary clearance, intellectual property, legal matters, food and agricultural products safety and public security.

Conclusion

22. The HKSAR Government will continue to work closely with Guangdong, and make good use of the Central Government's package of measures to support social and economic development in Hong Kong announced by the Vice-Premier of the State Council Mr Li Keqiang. Guided by the National 12th Five-Year Plan and the objectives of the Framework Agreement, we will progressively implement various areas of work under the Framework Agreement to advance the overall competitiveness of the Pearl River Delta Region.

廣東省通信管理局與香港特別行政區政府電訊管理局 關於建立粵港兩地跨境電信網絡嚴重故障 應急通報機制的合作安排

由於廣東省（以下簡稱“粵”）與香港特別行政區（以下簡稱“港”）之間的通信量十分龐大，兩地作為其它地區經轉業務通信樞紐的地位也十分顯著，所以兩地之間電信網絡的可靠與安全對兩地（包括兩地對外）的通信、社會和經貿發展有著極其重要的作用。

廣東省通信管理局與香港特別行政區政府電訊管理局（以下簡稱“雙方”）均確信：有必要在涉及跨境電信網絡嚴重故障應急處置領域進一步加強密切合作，建立相互間通報機制，迅速、有效地互換信息（資訊），提高應對突發事件的應急處置能力，確保粵港兩地之間電信網絡的可靠與安全，這對於粵港兩地都是極其有益的。

(1) 兩個或以上陸纜傳輸通道同時出現物理性中斷，且原本承載於該些陸纜傳輸通道的電信業務並不能於該現象出現後 3 個小時內完全轉接到其它陸纜傳輸通道。

(2) 因各種事故原因引起，造成粵港兩地的某一個運營商（營辦商）通過陸纜傳輸通道跨境通信的實際帶寬處理能力下降到正常帶寬總容量的 50%以下，且該現象歷時 3 個小時或以上仍未改善或繼續惡化。

4、“通報解除”是指跨境電信網絡的嚴重故障在經過有關恢復過程後，滿足以下全部條件，且經雙方共同確認的通報任務：

(1) 原本承載於曾經出現過物理性中斷的陸纜傳輸通道的電信業務已全部恢復正常（包括通過第三方轉接疏通的方式）；或者，未恢復正常的電信業務僅局限於一個曾經出現過物理性中斷的陸纜傳輸通道內。

(2) 粵港兩地的某一個運營商（營辦商）通過陸纜傳輸通道跨境通信的實際帶寬處理能力上升到正常帶寬總容量的 50%或以上。
